

CONTENTS

Adaptive Control of a Large Space Structure using Lattice Filters

F. Bernelli-Zazzera, L. Dozio, P. Mantegazza

On the Gyroscopic Stabilisation of a Single Track Vehicle: Free Control Response when running Straight ahead

A. Baldi

Closed form solution for non tubular bonded joints with tapered adherends under torsion

N. Pugno

Assessment of Real Contact area in metallic interfaces: a comparison between Finite Element and ultrasonic results

M. Ruggiu, M. Pau

Electrical flight controls feasibility study for aircraft models

P. Maggiore

next number scheduled titles:
